Lab 7 – Creating an intelligence mapping

1. From the ATT&CK Workbench menu, click Groups.

2. Find and select APT29 and click View.

3. Click the Add A Technique button.

4. Under the Target Type drop down, select Technique.

5. Within the Search bar, search for "T148". This will filter the results by ID. Select the ID T1489 which is for the Service Stop Technique.

6. Enter a description e.g. "APT29 targets ESXi servers".

7. Click the View Sidebar icon.

8. Search for "HelloKity".

9. Select the copy icon.

10. Paste the citation after the description.
