Lab 6 – Add new intelligence reference

1. From the ATT&CK Workbench menu, click the Toggle Resources Drawer icon.

2. Click the Add A Reference button.

3. Enter a name e.g. "HelloKitty ransomware ESXi".

4. Enter any authors e.g. "BleepingComputer".

5. Select the month, day and year e.g. July 15, 2021.

6. Enter a title e.g. "Linux version of HelloKitty ransomware targets VMware ESXi servers".

7. Select a retrieved date e.g. the current date.

8. Enter the URL e.g. https://www.bleepingcomputer.com/news/security/linux-version-of-hellokitty-ransomware-targets-vmware-esxi-servers/

9. Click the Save button.

10. Search for the newly created reference e.g. "HelloKitty".
