# Lab 2 – Adding a Collection Index

1. From the ATT&CK Workbench main menu, click Collections

2. From Collection Indexes, click Add a Collection Index button

3. Paste the following into the URL field: https://raw.githubusercontent.com/mitre-attack/attack-stix-data/master/index.json

4. Click the Preview button

5. Scroll down to view the individual collections contained within the collection index. Expand the Enterprise ATT&CK collection to view the details

6. Click the Add button. You should now see a "Success" message displayed

7. Click the Back To Collections button
